DISTANCE EDUCATION

Our distance education program offers students the freedom to learn English on their time. This teacher-supported computer program works on almost any device. In addition, targeted language lessons are assigned to students as needed. Students are required to work a minimum of five hours a week.

ATTENDANCE POLICY

Participation in class is vital to the learning process. As an education program we hold our students to a 75% attendance policy. We do, however, understand that events happen, so our students have a number of ways to make up time that they miss from their class.
